Notes to help you complete the DBKA Subscription form

DBKA has 11 branches: East Devon, Exeter, Holsworthy, Newton Abbot, North Devon, Okehampton, Plymouth, South Hams, Tavistock, Tiverton, Torbay. Members may belong to the Branch of their choice, but if no Branch is selected, new members will be assigned to the Branch that is local to their home address.

BDI

Bee Diseases Insurance (through BDI Ltd) covers losses due to notifiable bee diseases. Insurance for three colonies is included in Registered Members' subscription *only*. Registered Members with more than 3 hives are required to increase the insurance component of their subscription as per the table below.

Partner Members are not required to make any BDI payment, but the Registered Member is responsible for insuring all colonies owned by themselves and their Partner Member.

Bees kept by Junior Members whose parents do not keep bees, or who have not insured the Juniors' bees on their behalf can have insurance taken out on their behalf with BDI. In such circumstances the paper or e-Return receipt should show the Junior member's name in the usual way, but the first line of the address should be replaced by - 'Mr A Adult (on behalf of J Junior)', followed by the address on the remaining lines. (Beekeepers under the age of 16 years are unable to take out insurance policies and any policy has to be arranged by a parent or guardian.) Members are advised to read the terms and conditions of this insurance before subscribing to ensure that the cover and terms are appropriate for their situation. Use the tables below to calculate the premiums payable. Special terms are available for members with forty or more colonies.

BeeBase

BeeBase is a valuable beekeeping resource maintained by the National Bee Unit (NBU). In addition to providing information to beekeepers, it maintains a voluntary register of beekeepers in England, Wales and Scotland. This register enables the regional and seasonal bee inspectors to know where beekeepers and their apiaries are located and allows them to make contact in the case of a disease outbreak, with a view, if necessary, to undertaking a disease inspection.

The inspectors are experienced beekeepers and their visits often provide valuable training for the individual beekeeper. Should a beekeeper have an outbreak of a notifiable disease, and have cover provided by BDI, the inspector will validate the insurance claim on their visit.

By responding "Yes" to the BeeBase question you agree to share the following data with the National Bee Unit BeeBase system for the purpose of disease monitoring and control: Name, Address, Email, Telephone/Mobile, Membership Number and the name of the Association of which you are a member.
